Scope of Study

Summary: This data collection contains information on state government revenues and expenditures between 1790 and 1915. The data were collected in order to categorize revenues and expenditures according to 20th-century census standards. Standard industrial classification (SIC) codes are included.

Subject Term(s): census methods, expenditures, government revenues, historical data, historical periods, local government, state government

Geographic Coverage: Alabama, Alaska, Colorado, Delaware, Illinois, Indiana, Kansas, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Utah, Vermont, Virginia, Washington, Wyoming

Time Period: • 1790 - 1915

Date(s) of Collection: • 1984 - 1991

Data Type: aggregate data

Data Collection Notes: The data are delimited by commas. Each file contains three subfiles which provide information on different levels of aggregation. Every observation in the data files has the same structure. These data were compiled as part of a larger study on the sources and uses of funds in state and local governments. Only state data were supplied by the principal investigators. There are no Expenditure Data files for Colorado and Montana.

Methodology

Data Source: state treasurer reports, comptroller reports, Library of Congress records, University of North Carolina microfilm records of state government documents

Extent of Processing: Standardized missing values.

Access and Availability

Note: A list of the data formats available for this study can be found in the [summary of holdings](#). Detailed file-level information (such as record length, case count, and variable count) is listed in the [file manifest](#).
